Bethel House,

W. F. Lovejoy & Son, Prop'rs,
BETHEL HILL, MAINE.

This popular house has been repaired since last season, the stable and outhouses have been moved to the rear of the house, thus leaving the view of the mountains unobstructed. Parties wanting a quiet summer home will find this one of the most desirable places in the Mounts region.

(Boston), will ignore recent session order issued by general executive board. — Labor differences at Dodge Brothers shoe shop, Newburyport, Mass., amicably settled. — President Cleveland's new campaign launch arrived at Buzzards Bay, Mass.

Tuesday, July 30.

Henry G. Clark of Chelsea, Mass., a lad of 17 years, admits setting several dogs. — Massachusetts naval brigade begun its annual tour duty. — Mysterious disappearance of the Dunbar of Waterbury, Conn., Mass. — Defender won her first victory on the initial day of the N. Y. Y. C. cruise. — No alarming news from Jacksonville. — Heat wave. — \$500,000 of nine votes under any coalition. — Death of Judge Blake of Chicago. — Washington. — Major voted \$500,000 toward the new railroad for that section. — Failure of the Union bank of Denver. — Member of Montreal firm confesses to complicity in firing his property. — On boarder Amana disabled at sea. — New Harve of Utah's prices announced for Brooklyn (Mass.) stock workers. — Horace. — Either decline ended. — P. Morgan & Co. deposited \$2,000,000 gold with New York sub-treasury on account of the gold. — Another French war prophesied in Berlin. — Arkansas river flooded its valley and ruined crops. — Death rates doubled in East London by water famine. — Congress of Catholics in Munich may be able to cause a reorganization of the Central party in Germany. — Building of the Spirit Bonded House company, on the island of St. Helena, destroyed by fire. — United States government sent troops to relieve the destitute negro colonists at present in Torreon, Mex. — People of Montana protest against the proposed construction of the Great Northern and Northern Pacific systems. — Flooding attended with bloodshed, occurred in the Hebrew colony on Segel street, Brooklyn, caused by some of the striking tailors in attempting to prevent non-union men from working.

The Smallest Land Grant.

What is beyond, doubt the smallest body of land ever granted by the United States as a homestead is in Dade, the extreme southeastern county of the state of Florida, consisting of a small island in the north end of Lake Worth. This island is two rods less than one-fourth of an acre in extent, yet the claim for it was entered in the United States land office at Gainesville. Final proof was duly made, and the owner took possession. He is J. J. Haley of Rhode Island, and the island cost him \$5.37—\$5 for the entry fee and 37 cents for the land. The homestead is but a small island, situated about one mile from the ocean, whose tide flows into the lake from an inlet about that distance from the island. Mr. Haley makes about \$80 per month from his investment, as the island is just in the path of gales and logdrifted turtles coming into the lake from the ocean to feed, and there he catches them.

Climbing Mount Blanc.

It is an expensive as well as a very tiresome undertaking to ascend Mount Blanc. It costs at least \$500 per person, by the law of the commune of Chamonix to New Levent, is obliged to have two guides and a porter. So far as danger is concerned, it is now reduced to a minimum, but almost every year the mountain claims a victim. Bad weather is the chief thing feared by the guides, and so swiftly does it come that a cloudless sky may in 15 minutes turn to a blinding snowstorm, which beats upon the ground. Thus it was that some years ago a party of 11 persons perished. Five were found frozen stiff in the snow. The other six still lie buried in the Glacier des Boissons. Forty years is the time allowed for the glacier to rid them up in the valley below. — Boston Transcript.

IN HUB MARKETS.

Transactions in Produce Show General Firmness.

Watermelons a Drug on the Market.

Eggs and Butter Held Firm—Live Stock and Wool Markets.

Boston, July 25.—Higher prices must be quoted for butter this week. New York has advanced 1/4 cent, Elgin 1 cent and Chicago 1/2 cent per pound. Boston falls into line with 1/2 cent. This has been brought about by the shrinkage in the make and by the deterioration in quality of a large portion of the receipts here. Not by any increased demand. It means that notwithstanding the liberal receipts and the large stock in supply, there is a shortage in the supply of what may be classed as fancy fresh butter, and that in order to secure a fair share of the make, a little higher prices must be paid. The next best grade is plentiful, and rules at about previous prices, but it will probably feel the effects of the rise next week. To some people the situation may seem peculiar in view of the large stock, but the market every year takes a turn of this kind, and old dealers look for it as a matter of course. Last year about this time prices started up, and during the first week in August were 5 to 6 cents from the make and by the deterioration in quality of a large portion of the receipts here. Not by any increased demand. It means that notwithstanding the liberal receipts and the large stock in supply, there is a shortage in the supply of what may be classed as fancy fresh butter, and that in order to secure a fair share of the make, a little higher prices must be paid. The next best grade is plentiful, and rules at about previous prices, but it will probably feel the effects of the rise next week. To some people the situation may seem peculiar in view of the large stock, but the market every year takes a turn of this kind, and old dealers look for it as a matter of course. Last year about this time prices started up, and during the first week in August were 5 to 6 cents from the make and by the deterioration in quality of a large portion of the receipts here. Not by any increased demand. It means that notwithstanding the liberal receipts and the large stock in supply, there is a shortage in the supply of what may be classed as fancy fresh butter, and that in order to secure a fair share of the make, a little higher prices must be paid. The next best grade is plentiful, and rules at about previous prices, but it will probably feel the effects of the rise next week.
